Client Confidentiality and Release Form

I understand this modality is not a replacement for medical care. The practitioner does not diagnose medical illness, disease or other physical or mental conditions unless specified under his/her professional scope of practice. As such, the practitioner does not prescribe medical treatment of pharmaceuticals, nor does he/she perform spinal manipulations. The practitioner may recommend referral to a qualified health care professional for any physical or emotional conditions I may have. I have stated all my known conditions and take it upon myself to keep the therapist/practitioner updated on my health.

I understand that Pilar Chandler has been trained and is certified as a Holistic Health Practitioner and Ayurvedic Practitioner, both of which do not currently have a licensing body in the state of California. California Senate Bill SB-577 allows for professionals to practice their healing art within their scope of practice.

Confidentiality of medical and personal information obtained during the course of the practitioner's work is of the utmost importance. HIPAA regulations require all practitioners obtain a signed release form from their client *before* taking any information about them. The best way to be fully compliant is to obtain this release signature at the initial consultation. Clients should receive a copy of the form they signed (upon request), and the practitioner maintains a copy for their records
